Professional Summary

B.Tech Computer Science student with hands-on experience in Python, Django, JavaScript, HTML, CSS, and SQL, building full-stack web applications. Seeking an entry-level Software Developer or Python Full Stack Developer role to apply my technical skills and grow through impactful projects.

Projects

Hotel Management Website

HTML,CSS,JavaScript

- Designed a responsive hotel booking website with attractive landing pages and service sections.
- Improved user experience with a clean and modern interface.

Guessing Number Game(Web Application)

HTML,CSS,JavaScript

- Built an interactive number guessing game with random number generation and real-time feedback on guesses.
- Implemented attempt counting, score calculation, and game reset functionality.
- Applied DOM manipulation, event handling, and input validation for a smooth user experience.

Charity & NGO Management System

Django,HTML,CSS,JavaScript

- Developed a dynamic website with modules for campaigns, events, NGOs, volunteers, and donations.
- Implemented CRUD operations and database integration using Django ORM.
- Integrated SMTP-based email for automated volunteer and contact confirmations.

Internship

Frontend Development Intern - Code Alpha **July 2026**
